SUBMISSION OF SEQUENCE LISTING

Dear Sir:

In accordance with the requirements of 37 CFR 1.821-1.825, a nucleotide/amino acid sequence listing is being submitted herewith. The sequence listing is in the form of both a paper copy and a computer readable copy on a computer diskette. The undersigned agent verifies that the paper copy of the sequence listing and the computer-readable copy of the sequence listing submitted herewith are identical.

Applicants gratefully acknowledge the "Raw Sequence Listing Error Summary" attached to the formalities letter of May 31, 2001. In response, applicants have prepared a corrected paper and computer-readable sequence listing in which each of the identified errors has been addressed. The paper copy and the computer-readable copy of the sequence listing submitted herewith are substantially identical to corresponding copies of the sequence listing that were filed with the patent application on April 10, 2001, and, accordingly, the undersigned certifies that the sequence listing submitted herewith does not go beyond the disclosure of the application as filed.

Respectfully submitted,
